POWER, PERFORMANCE & PRECISION

ORION 24K features:

- ✓ Easy-Read Electronic Load Scale: Instantly gauge the weight of your cargo with crystal-clear accuracy, ensuring safe and efficient operations every time.
- ✓ Full-power fork locators align the forks where you need them, when you need them, effortlessly.
- ✓ Rugged design and durable construction: Built to last with long-life components, ensuring consistent performance and reliability throughout its lifespan.
- ✓ Tilt and roll angle sensors: Continuously monitor equipment orientation, ensuring safe operations and precise positioning every time.

Optional Equipment:

- ✓ Variety in forks: Whether you need coil prong, coil forks, extra long forks, or another type, select the perfect fit for the task at hand, enhancing load versatility.
- ✓ Extra-wide/custom carriages ensure precision in load placement and adaptability for diverse operations.
- ✓ Front & backup cameras: Navigate with confidence, enhancing safety and minimizing risks in both forward and reverse directions.
- ✓ Full-function Digital Radio Remote Control: Effortlessly steer, drive, and lift with unparalleled precision and from a safe distance.

Back up alarm, in-operation strobe, among the safety features standard.

Extremely narrow frame with low profile for lifting in small spaces.

State-of-the-art electronic easy-read load scale.

Easy-to-Use power fork positioners for supporting different sized loads.
